Showing an increase in tin ore of 126 tons, in silver and lead of 552 tons, in coal of 10,157 tons, in copper of 110 tons, and in timony a decrease of 110 tons.

The apparent discrepancy in the quantities and values of the silver sent from Herberton and Ravenswood District may be thus plained—4,849 tons of ore raised in the former district was reduced by smelting to 1,041 tons of lead bullion containing, according to say, 272,863 ounces of silver, while the 1,142 tons of ore reported at Ravenswood is undressed ore.
